MIRROR, ALTA., NOVEMBER 6, 1919

\$1.50 PER YEAR

NEXT SCHOOL FAIR IN MIRROR

List of Prizes Will Be Prepared For Early Use

A meeting to organize for the School Fair to be held in 1920, was held in the Town Hall, Mirror, last Saturday afternoon, the following being present: A. J. Haywood and R. Dane, of Bashaw school; Miss Bolch, Georges school; Miss McFarlane, Ripley school; R. Leckelt and Misses Squarebriggs and Beer, of the Mirror school; and Mrs. R. W. Barrill of Ripley; and Mrs. G. K. Tilley, of Mirror.

Mr. Haywood acted as chairman and officers were elected as follows:

President, A. J. Haywood;
Vice Pres., Miss McFarlane;
Sec., Miss Squarebriggs;
Treas., Mrs. G. K. Tilley;
Executive Committee, R. Dane; G. Crawford (Alix); R. Leckelt. Each member of the executive has power to appoint a local committee in their respective towns.

The first fair was held at Alix in 1917, the second at Mirror in 1918, and this past year Bashaw was the meeting point, and according to previous arrangements Alix should have had the fair in 1920. However, owing to Mirror being so centrally located it was decided to have the sports, etc., here next year.

The shield which was put up for competition amongst the schools, was donated by the U. F. W., is proving a great incentive to work on the part of the scholars and teachers in the different schools. Ripley was successful in winning the much coveted trophy the first two years and tried hard for the permanent ownership in 1919, but Bashaw school carried off the honors.

The prize lists will be prepared within a short time, so as to get them into the hands of the teachers and pupils at as early a date as possible.

COUNCIL MEETING

The regular monthly meeting of the Village Council was held last Monday evening. Present: Mayor Raymer and Councillors Glazebrook and Holland.

Several applications for the purchase of lots by townspeople were read and the Secretary will submit the same to the Department of Municipal Affairs, Edmonton.

Accounts passed:
J. McKay, \$ 7.00
J. Masley and helper, 22.20
F. Tulloch, 57.00
F. E. Osborne, 7.45
Freight and express, 1.50

The Secretary was instructed to communicate with Fred Powers, of Winnipeg, the former owner of lot 9, block 50, Mirror. This lot was seized by the village under tax enforce-

ment proceedings and sold at public auction this summer to Jas. Smalley, of Calgary, and resold to Mrs. H. Oldring, of Mirror, who has moved a house on to the lot. It now appears that Mr. Powers was overseas and accordingly, was not liable for the taxes that accrued against the property. The Council was unanimous in its desire to clear the trouble up and will endeavor to get Mr. Powers to accept another lot.

TRIUMPH FOR THE HEREFORDS

Mirror Contributes Bull Calf For the 1920 International at Chicago Pym Bros. Supply One of Their Herd

A few weeks ago Prof. Dowell, of the Department of Animal Husbandry for the Province of Alberta, visited all the pure bred herds in the Province to pick calves to represent the various breeds at next year's International at Chicago.

It reflects no small credit on this district as a stock raising centre, and on Pym Bros., of Exmoor Ranch, as breeders of "the whiteface", that Prof. Dowell selected one of their Hereford calves. This animal (an April calf) was immediately

shipped to the University, and is now "in training". On August 1st the calf weighed 340 pounds and on Sept. 1st 450 pounds.

That the highest standard of quality is required is evidenced by the fact that in the six herds previously visited, Prof. Dowell saw nothing to suit him. There are six Herefords being fitted by the University, and the final selection will be made next summer. Exmoor Ranch is five miles from Mirror.

MIRROR WILL HAVE OPEN AIR RINK

Prospects Bright For A Fast Hockey Septette

The Mirror Athletic Club is now taking in hand the question of an ice rink for Mirror for this winter, and a meeting will be held in the Town Hall, on Wednesday evening, Nov. 12th, to go more fully into the undertaking. The Club has a small surplus on hand from the past summer's work which could go towards the initial expenses.

Several locations have been suggested, one being the old Settlers' Lumber Coy's lots which are already fenced; the block opposite the printing office, and also the pond just east of the G. T. P. track. A free supply of water has been promised, providing a satisfactory site can be secured. The club is now on the lookout for some person to take charge of the rink.

Season tickets will be sold and a special rate given to the school children for Saturday afternoons and certain other days to be arranged later.

Mirror has been without a rink for several winters and the Club should meet with success from the start. Neighboring towns are preparing sections of ice and there is no reason why this burg should not have a first-class open air rink. There is all kinds of material for a lucky team and Mirror will no doubt, put a team on the ice that will hold its own with the other towns.

Attend the meeting on Wednesday and come prepared to offer suggestions and get the thing going. All members and those intending to join are invited to attend. At the conclusion of the meeting the gathering will take the form of a social affair.

Where It's Summer All The Time

This is the season when you are thinking of where you will spend the winter. You cannot do better than consult Grand Trunk Pacific representatives.

The railway and steamship route to North Pacific Coast points and California is the new way and without a peer. The ocean voyage through the quiet seas of the "Inside Passage" between Prince Rupert, Vancouver, Victoria and Seattle is the finest ocean trip in America. Winter rates will be announced shortly. For information and literature apply to any Agent of the Grand Trunk Pacific Railway, or write W. E. Duperow, General Passenger Agent, Winnipeg.

The School Board of Mirror Consolidated School District, No. 31, met last Saturday afternoon, with Chairman Birley and Trustee Crutchfield present. Business was light; a few accounts were ordered to be paid.

Which
are you
going to have
\$45 or \$82.50

If you have \$100 in the Savings Bank it will pay you 3 per cent. interest, or in fifteen years, \$45.00.

If you take that money out of the Savings Bank and invest it in Victory Bonds, Canada will pay you 5½ per cent. interest on it, or in the same time, \$82.50

BUY
Victory Bonds
and get more interest

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada.

Admit Germans to Labor Conference

Washington.—Germany and Austria are to be admitted to the international labor organization, "with the rights and obligations possessed by other members."

A recommendation to this effect from the organization committee was adopted by the labor conference with but one dissenting vote. The debate was spirited and prolonged, but ultimately it came to an inglorious end under the closure rule. The vote for admission stood 71 to 1, the one vote being that of Louis Guerin, French employers' delegate. There was also one abstention. Jules Currier, Belgian employers' delegate, did not vote either way.

The Belgian government delegates voted for admission, not, as they emphasized, because they wished to admit the Germans, but because of economic necessity.

The four Canadian delegates all voted for the motion to admit. On the previous motion to apply closure, however, they divided. Mr. Parsons, employers' delegate, and Mr. Draper, workers' delegate, voted against the motion.

The two Canadian government delegates, Mr. Rowell and Mr. Acland, who is substituting for Mr. Robertson, voted for it. The vote on the closure motion stood: For, 65; against, 10.

The attitude of the Canadian delegates toward the motion for admission was determined at a meeting of the delegation held prior to the debate in the conference. The question was thoroughly discussed from all standpoints. It was then determined to support the recommendation of the organizing committee on the recommendation from the economic point of view, it was essential that German industry should be brought within the scope of the restrictions laid down in the labor annex to the League of Nations covenant.

Future Depends on Navy.
London.—Speaking at the Navy League, Walter Home Long, first lord of the Admiralty, said that while the country had been told to look to new forms of protection, it must not forsake the substance for the shadow. The peace and future of the world is inseparably associated with the policy the country is going to pursue with regard to her naval forces.

Werner Horn Found Guilty.
Fredericton, N.B.—Werner Horn was found guilty on the charge that he dynamited the Canadian International bridge at St. Croix, N.B., on February 2, 1915. The jury was out only 13 minutes. Horn, who conducted his own defense, was a German officer and was acting under orders of the German government in war time.

Drury is Chosen Premier of Ontario

Toronto.—E. C. Drury is to be the next premier of Ontario, succeeding Sir William Hearst. Mr. Drury was the unanimous choice of the Farmers of Ontario and Labor representatives in the new legislature, at a joint conference at the U.F.O. headquarters. It is understood that the meeting was very harmonious and that there was an indication of the two groups pulling well together in the house, though both the U.F.O. and Labor will retain their group features to a considerable extent.

Premier-elect Drury said that the new government was practically completed, that all the portfolios had been allocated, and that the government would be ready on short notice to take over the reins from Sir William Hearst and his ministers.

The policy of the United Farmers no far as it has been definitely agreed upon is outlined in an address given by Mr. Drury after his selection. In this he stated that one of the first acts of the new government would be to carry out the mandate of the people of the province on prohibition, as declared in the recent referendum vote, and Mr. Drury expressed himself as in complete sympathy with this mandate. He pointed out that the U.F.O. had voted war on special license samples, and this policy would be continued, he said.

He intimated that the new gov-

Labor Maintenance

Sum Owing

Dominions Paying Interest Which Would Be to State's Advantage in Future

London.—In the house of commons Col. Winston Spencer Churchill, secretary of state for war, said the British dominions owed the war office \$50,000 for the maintenance of troops in the field.

"We do not now anticipate receiving more than fifteen million pounds from Australia (the present year)," said Mr. Churchill, "owing to financial difficulties, but the remainder was a perfectly good loan from which the dominions were paying interest and which would left over for the state's advantage in future years."

Aliens Deported

Men Were Held in Internment Camp and Bailed From Canada on October 27

Winnipeg.—Ten of the aliens arrested in this city during the riots of June 19 have been deported, according to information received here. The men had been held in the Kapuskasing internment camp, Ontario, and had been bailed from Canada on October 27. One man who had been arrested at the same time, a Russian, who had served four years overseas with the Six Battalion, is still in the internment camp, according to information of officials of the Labor Defence League.

Melting of Coins

Order Making Illegal Breaking Up of Silver Coin Currency

London.—Austria Chamberlain, chancellor of the exchequer, announced in the house of commons today that an order has been issued making illegal the melting or breaking up of silver coin currency. The report of the British silver coin is prohibited and steps are being taken to prohibit the export of silver bullion except under license. The situation, the chancellor added, is being carefully watched and he hoped further action would be unnecessary.

Britain's Final Aid to Denkhine

London.—In defending the army expenditures, Secretary for War Churchill announced that the cabinet had approved a final contribution of the surplus stores to General Denkhine, the anti-Bolshevik leader in South Russia. The value of the contribution, he said, was approximately £15,000,000 sterling, and it would be dispatched during the winter.

Drury is Chosen Premier of Ontario

Toronto.—E. C. Drury is to be the next premier of Ontario, succeeding Sir William Hearst. Mr. Drury was the unanimous choice of the Farmers of Ontario and Labor representatives in the new legislature, at a joint conference at the U.F.O. headquarters. It is understood that the meeting was very harmonious and that there was an indication of the two groups pulling well together in the house, though both the U.F.O. and Labor will retain their group features to a considerable extent.

Premier-elect Drury said that the new government was practically completed, that all the portfolios had been allocated, and that the government would be ready on short notice to take over the reins from Sir William Hearst and his ministers.

The policy of the United Farmers no far as it has been definitely agreed upon is outlined in an address given by Mr. Drury after his selection. In this he stated that one of the first acts of the new government would be to carry out the mandate of the people of the province on prohibition, as declared in the recent referendum vote, and Mr. Drury expressed himself as in complete sympathy with this mandate. He pointed out that the U.F.O. had voted war on special license samples, and this policy would be continued, he said.

He intimated that the new gov-

Alleged Evasion Of Immigration Law

Claim that Hatteries Get Into Canada By Automobiles

Winnipeg.—Finding it a difficult job getting into Manitoba from the United States by train, Hatteries, it is alleged, are trying to outwit the immigration authorities by entering in automobiles. Reports to this effect were submitted at a meeting of the central branch of the Great War Veterans' association, with a result that a resolution was unanimously passed calling the attention of the federal government to the matter and urging it to take immediate steps to see that the regulations prohibiting the entry of Hatteries into Manitoba were not evaded in what was described as this astute way.

The Sugar Shortage

Licenses to Export Sugar Cancelled by Canadian Trade Commission

Ottawa.—No export licenses of sugar from Canada are being issued, and old contracts which called for the shipment of sugar to the United States have been cancelled by the Canadian trade commission, it was learned. Export of sugar along the St. Lawrence river has been limited to some extent in the past, has also been stopped, despite the many hundreds of requests for sugar being received by the trade commission.

At the office of the commission it was stated that if care is exercised by the consumers, there is sufficient sugar in Canada for domestic use, providing there are no strikes or transportation delays.

The newspaper reports that the best situation in the world in this respect, it was stated.

To Solve Fiume Question

France and Britain Are Again Trying to Bring About Settlement of Problem

Paris.—Efforts of France and England are again being brought into play to bring about a settlement of the Italian-American difficulties over the settlement of the Fiume problem, according to the Liberte.

The newspaper reports that the American opposition to the modified Fiume proposals is unchangeable and that the response of Secretary of State Lansing is in the negative.

Premier Clemenceau received Foreign Minister Tittoni.

Heavy Potato Loss in Manitoba

Winnipeg.—Manitoba has sustained a loss of about 2,800,000 bushels of potatoes, frozen in the ground which at market prices today, \$1.25 per bushel, means a loss of \$3,500,000.

Canada is not short of potatoes, but the loss of the entire crop. Dealers say there will be a serious shortage in the province this winter.

Proportional Representation

Winnipeg.—A bill providing for proportional representation for Winnipeg will be introduced in the next session of the provincial legislature, it is stated.

It is stated, Winnipeg would be the only district affected, as the city is not a constituency, but the situation is not such, as the bill is only one of many where there are more than one member.

War on Illiteracy

An Americanization bill to wipe out illiteracy in the United States, was reported on favorably by the senate labor committee. The bill would appropriate \$12,500,000 a year.

Melons Grown in the West

George Merrick, head of the Merrick-Anderson company, who for years before the war and ever since has been a most earnest advocate of greater production, is very proud of the fine muskmelons which he is carrying out in the province. It is to come a very large proportion of the market gardening for the city. Winnipeg will be done in the light, warm, sandy soil in the region near the town of Selkirk, where conditions are very favorable. The picture shows samples of the melon crop of this season, said to be equal to those of Montreal.

Turkish Question For New Conference

Entente Representatives Are Persuaded U. S. Will Not Voluntarily Accept Mandate

Paris.—The entente representatives in the peace conference apparently are persuaded that the United States, not voluntarily accept any mandate in the Near East, and it now seems assured that the Turkish question will not be touched by the present peace conference, but will probably be taken up by another conference to be held within a few months. There is much speculation as to where the conference for the division of Turkey is to be held. It will probably not be in Paris. The suggestion of Geneva has not met with great favor, as it is not regarded as a good place for a winter conference, and it is believed that Turkey must be disposed of before spring.

To Relieve Distress

Preparations Being Made in U. S. to Cope With Strike Situation

Washington.—The government, confident with the refusal of the miners' organization to call off the strike of a half million soft coal workers, has moved quickly to protect the people from great distress.

First of many steps to deal with a situation admittedly critical probably will be these:

"Ample police or other protection for miners willing to remain on the job as urged by President Wilson."

"Revival of the fuel administration, armed with full war-time powers to prevent hoarding and profiteering."

"Allocation and distribution of coal to homes, railroads and industries."

"Efforts to bring the strike to a speedy end through mediation."

"The government, however, will make no effort to bring about indictment of officers of the United Mine Workers of America, who called the strike, on charges of conspiracy to reduce production of a necessary product."

Sugar Rations to Candy-Makers

Washington.—Rationing of sugar to manufacturers of candy, soft drinks and the like is seen to be suggested by the sugar equalization board, a house war investigating committee, the federal food administration.

This step by the House Mr. Hoover said, resulted from the fact that "raw sugar has been beyond the control, where it can be bought advantageously for the housewife."

Germany May Not Hand Over Ships

Berlin.—The Deutsche Allgemeine Zeitung says semi-officially that the reply of the German government to the demand of the supreme council in Paris, demanding the surrender of German ships sold to Holland during the war, will probably be in the negative. The note will declare that the government is unable to endorse the legal arguments of the entente that the sale of these ships, which are now in German waters, was invalid.

To Withdraw British Troops

London.—And the German government leader in the House of Commons, announced that the government was arranging with France and Prime Minister Lloyd George for the withdrawal of the British troops from Syria and the assumption of the duties of occupation by the French and Arabs, pending the conclusion of the peace treaty.

Britain is Defied By Sinn Feiners

Motion Pictures

Of German Crimes

Films Have Been Taken From Von Tirpitz Showing Actual Sinking of Sinking Vessels

New York.—Motion picture films taken from archives of Admiral Von Tirpitz in the former Kaiser's admiralty and showing allied vessels being torpedoed by German U-boats during the whole war, were brought here by J. H. Maczumi, a Knight of Columbus secretary.

The films, which were destined for exhibition by Germany on the day of its triumph, were made by camera men on a submarine which was commissioned to cruise about the Irish Sea and photograph merchant vessels after they had been attacked by U-boats. This boat went more than 40,000 feet of film. The pictures depict the U-boats shelling four British vessels while those on the ships were swimming for lifeboats and rafts. A torpedo leaving the tube of the submarine, speeding towards its victims, is also shown.

Stranded in England

British Government Has Been Requested to Provide for Canadians Now in Old Country

London.—The Canadian government will probably receive representation from the British government of a camp here for a very limited period for soldiers who took their discharge here, and now find themselves stranded.

It will also be understood that although these men have now absolutely no legal claim for repatriation, they will be asked to grant this concession. If this is done, however, it is urged that some organization in Canada should be prepared to look after them on their arrival, otherwise their condition in Canada will be as bad as it is here.

Navy Must Retain Strength

Beatty Says Nation Would Fall to the Ground Unless Sea Force

London.—Earl Beatty, the new first sea lord, speaking here, declared that while public opinion was essential, new vast lines of communication were as important as before the war, and the navy was our insurance for maintaining them. The League of Nations was a giant hope for relieving us of some of that insurance, which he hoped might be fulfilled, but the navy must be built up into a strong man armed, and without it the Empire would fall to the ground.

Explosion on Japanese Battleship

Tokio.—The manoeuvres of the entire Japanese navy, in which the Emperor participated, were marred by an explosion on the battleship Hiei at Yokohama Bay. Fourteen men were killed and thirty injured.

Canada Wants Place In Governing Body

Washington.—Canada has filed formal protest against the proposed composition of the governing body of the international labor office, as established under the League of Nations. The point at issue is regarded as the greatest importance, it involves the right of Canada, by reason of her industrial importance, to have one of the members of the governing body rather than to take her chance of election as one of the nations of lesser importance, from the industrial point of view.

The international labor office (which will be controlled by the permanent organization created by the application of the labor principles embodied in the peace treaty) governing body is to consist of 24 members. Twelve will represent the governments, six will be selected by the employers' delegates to the international labor conference, six by workers' delegates to the conference.

Of the twelve government representatives, eight will be nominated by the governments, and the others are of chief industrial importance. The remaining four will be nominated by the other government delegates to the conference. The governing body will consist of 24 members, comprising which eight nations are of industrial importance and three of the industrial labor office, as representative on the governing body. The organizing body of the labor conference has reported in favor of the following:

United States, Great Britain, France, Italy, Belgium, Japan, Switzerland and Spain.

If German delegates are admitted to the conference, Germany by reason of her industrial importance, will be entitled to a seat on the governing body, should being at the end of the list will cease to be numbered among the eight.

New position taken by Canada is that she should rank as one of the eight nations of "chief industrial importance." And to that end has deposited a protest. The Dominion government, however, she is entitled to be so regarded on the grounds:

(1) Of population.

(2) Of relative industrial importance.

Dublin.—The meeting of the Sinn Féin parliament held here was a direct defiance of the government's proclamation, and the people are instructed to voluntarily accept any mandate which will do about it. The meeting being illegal, the Irish papers are forbidden to mention it.

A report circulated by the Sinn Féin says that a national inspector of fisheries will be appointed; that a civil service scheme is being arranged to embrace all local officers, and also that national arbitration courts and labor conciliation bodies will be formed.

Estimates for the coming financial period, says the report, were laid before the house, and the necessary vote of credit adopted.

The six Sinn Féin members for Dublin have sent to the United States consul a copy of the alleged instructions for searching the effects of United States seamen. The letter says: "As these instructions constitute a hindrance to lawful trade with America with Ireland, we the elected representatives of the city of Dublin request that you transmit copies of them to your government."

No Relief in Sight

Winnipeg Wholesaler Says Exportation of Sugar is Cause of Shortage

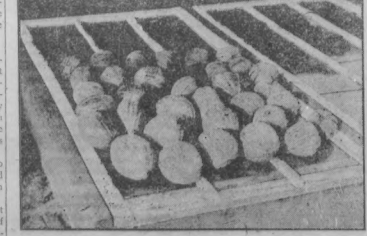

Winnipeg.—Replying to the Free Press, A. MacDonald, wholesale grocer, claims that the shortage of white sugar is due to the government granting permits too freely to exporters, while wholesale dealers in Canada can only get a few hundred sacks at a time, but are able to get brown sugar, because it is not good enough for the European market. He says:

"According to the British Columbia Sugar Refining Company's report, Fiji and Peru are coming to the help of Canada. One boat with 700 tons and another with 2,000 tons are on their way, or in at least one-third of the quantity that left one of our eastern factories which wharves a week or ten days for European markets."

Co-Operation Asked in Scholarships

Winnipeg.—Co-operation of the provincial government in the plan to establish scholarships in Paris for graduates of Canadian colleges was asked by Hon. P. Roy, Canadian commissioner general in Paris, at a conference here with Hon. Dr. R. H. Thornton, minister of education, and Hon. J. H. Maczumi, minister of commerce. That the government will establish the three scholarships asked, which will be of \$1,200 and tenable for a number of years in Paris.

New Haven, Conn. — Mrs. Ella Wilcox, a poetess and poetess, died at her home "The Bungalow," in Branford, recently. Mrs. Wilcox had been ill for some time, and she died a very old woman while engaging in war relief work in England.

George Merrick, head of the Merrick-Anderson company, who for years before the war and ever since has been a most earnest advocate of greater production, is very proud of the fine muskmelons which he is carrying out in the province. It is to come a very large proportion of the market gardening for the city. Winnipeg will be done in the light, warm, sandy soil in the region near the town of Selkirk, where conditions are very favorable. The picture shows samples of the melon crop of this season, said to be equal to those of Montreal.

THURSDAY, NOV. 6, 1919

There is no better investment
in the world than Canadian
Victory Bonds, now offered to
the Canadian public. They are
safer than bank bills, worth at
least their face value at any
time, return interest to the holder
twice a year, and the terms of
the purchase have been made
so easy that any man or woman
who has even a tiny surplus in
income over expenditures
should be able to buy at least
one bond.

Deuced early for winter, but
we haven't much control over
the weather—and that's a cinch.
Some think we will have a fine
spell yet, but others say "winter
has come." The Journal has
probably as much license as
anybody to register a guess,
and our first guess is that a
warm wave is due to settle
town before Christmas. If it
comes true, we'll tell you about
it; if not, it don't many any
difference.

The Bashaw Star of last week
says in part: "The first issue
of the Mirror Journal, again
under the guiding hand of W.
J. Good, reached us last week
and is certainly a credit both
to the town which it represents
and to the newspaper fraternity."
Thankee, Bro. Ward, the
liquid refreshments are on
us.

THANKS!

Members of the Chautauqua
Committee would like to take
this opportunity to thank all
who helped in the sale of the
season tickets and particularly
those who were not on the com-
mittee but did their best mere-
ly to make the undertaking a
success. Such co-operation
should be the nucleus about
which a bigger and better com-
munity can be made.

The Chautauqua, considering
the unfavorable weather and
the condition of the roads, was
a huge success, both in the at-
tendance and the financial side
of it, the committee having a
small sum to lay aside for the
Chautauqua Festival which is
to come again next fall, that
being the wish of 25 business
men and farmers who signed
the contract for 1920.

The editor would like to in-
vest in a Victory Bond provid-
ing he can annex sufficient of
the necessary coin of the realm
before the 15th inst. Your
sub. would help to do the trick.

NO REDUCTION IN LUMBER

No reduction in the price of
lumber is anticipated as it is
considered very unlikely that
production costs will diminish
in the near future. Supply and
demand will maintain its in-
fluence in price setting as all
mountain mills are practically
cleaned out of stock or will be
down to rock bottom by close
up time, and while logging op-
erations will continue during
the winter, the cut will not be
available for the market until
the latter part of May.

When it comes down to the
last analysis as to the profits
that are supposed to be made
just now by the lumber manu-
facturers, it is being found that
there is not that inflation of
bank books that is the gener-
ally accepted idea. In 1890 the
cost of production of lumber
according to certain accepted
statistics, was \$7 per M. In
the present year that sum has
jumped to about \$30 at the
mills. The ever increasing cost
of logs, the incessant demands
of the workers for higher wages
and shorter hours, the higher
price of the equipment and a
hundred and one other factors
have all entered into the
matter of raising the produc-
tion cost to a figure which was
not dreamt of twenty years
ago, and which is reflected in
the price of lumber today. This
answers the allegations of
bleeding the customer, and
shows beyond a doubt that the
lumber game in these days is
not all that it has been and is
deputed to be, as a money mak-
ing proposition.—Ex.

We are in receipt of a letter
from E. A. Birkly, a one-time
Mirror boy, who has returned
from Overcan to his former
position in the G. T. P. road-
master's office at Calgary. Mr.
Birkly was stopped on his
hike to the Rhine by a machine
gun bullet, but is now his old
self again. He "pays his re-
gards to all returned boys and
other friends of Mirror," in ad-
dition to his sub. to this g. f. j.

Miss Lucille Brewster was off

Quick Service

Mirror - Alberta

The McCormack Lbr. Co.
have had three cars of coal in
during the past week and ex-
pect three more during the
first part of next week. The
coal miners' strikes all over the
continent is making the supply
of coal fall below the normal
production and will cause a
coal shortage.

Methodist Church

Services every Sunday even-
ing at 7.30 o'clock. Sunday
School at 11 a.m. Prayer meet-
ing every Wednesday evening
at 8.00 o'clock. Rev. G. H.
Backus will take the service on
Sunday next. All are welcome
to these services.

LOCAL AND PERSONAL NEWS

Miss Hazel Jamieson, of Dorset, visited with her sister, Mrs. Leo, last week.

The G. T. P. pump line is out of commission and a gang is at work repairing the break.

The Women's Guild of St. Monica's church, Mirror, met last Friday afternoon at the home of Mrs. H. Mitchell. Ten was served. There will be two meetings of the Guild in November, one on the 14th and the other on the 28th, at Mrs. Mitchell's home, and no further meeting until after the New Year.

A Thanksgiving dinner will be given by the Ladies' Aid of the Methodist church in the Town Hall, Mirror, on Monday evening, Nov. 10th. A sale of what will be held at the same time.

J. Lewis, of Biggar, Sask., is the new locomotive foreman at the local G. T. P. shops.

A regular meeting of the Library Club will be held in the library building at 3:30 o'clock on Tuesday afternoon, Nov. 11.

Mrs. A. E. Washington is holding an auction sale of household goods in Mirror, on Saturday, Nov. 15th, at 1:30 p.m. J. F. Flewelling is the auctioneer. See ad. in this issue.

The basket ball game on Wednesday evening was played between Mirror and Buffalo Lake teams, the home team having the best of play.

The price for hides paid by local buyers has dropped from 25 to 20 cents, with prospects for a further decline.

Lorenzo and Mrs. Watson, Gus Watson and Mrs. Alex Babby, of Gadsby, Alta., were visitors with their father, J. V. Watson, for a few days this week. Gus was a member of the medical corp of the U. S. army and was in the front line when the armistice was signed.

H. J. Raymer visited the Capital last Thursday.

Mr. and Mrs. Dan McDonald (nee White), of Edmonton, are visitors in Mirror.

Mrs. H. A. McNeill is stopping in town until the new house on the farm is completed. The old house was burned down in September.

J. and Mrs. McKirby have moved into town, going into the Drake house. Mr. and Mrs. Drake and family have moved back to their farm about nine miles north-west of Mirror.

W. T. Holder has sold the N. E. 1-14-1-22 with, to R. L. Davidson, of Bashaw. C. W. Pemberton helped to put the deal through.

A. Common was a business visitor to Edmonton last Friday.

Miss Margaret Pemberton is attending the High School at Stettler.

Live stock shipments from Mirror to Calgary during the past week included three cars of sheep. E. A. Hengle was the shipper.

Before leaving to take up his duties as locomotive foreman at Calgary, S. Smith was made

the recipient of a club bag last Friday evening, the gift coming from G. T. P. employees and friends. The presentation was made by G. W. Angus and Jim Glazebrook, at the home of Mr. Smith. The evening was spent in music and song.

Mrs. Jas. Steele, a former Mirrorite, but now of Edmonton, is visiting with relatives and friends in town.

When you buy Victory Bonds you have an investment you can be quite sure of.

James Black, who lives on the S. W. 1, 18-10-22 1/4, one

LOAN TO DECIDE WHEAT EXPORT

Canada may be able to export 113,000,000 bushels of wheat in 1919-20. This is the encouraging prospect based upon figures from official sources. Canada requires for home consumptive purposes approximately 40,000,000 bushels of wheat and for seeding purposes about 35,000,000 according to authorities on this subject. The Government's estimate that the Dominion's yield will run about 130,000,000 bushels makes it appear possible for Canada to export about 113,000,000 bushels in 1919-20 or about 10,000,000 bushels more than last year, and keep a few million bushels for carry-over stock on August 1st, 1920. Of course, Canada's export trade depends largely upon the success of the Victory Loan. Sir Thomas White, ex-Finance Minister for the Dominion, drew attention to the importance of this fact when he said that in addition to credits, \$170,000,000 had been loaned to Great Britain in connection with single commodity of wheat last year. The would have been impossible if Victory Loan of 1918 had not been a great success. The circulation of this big sum meant prosperity to vast numbers of Canadians, and if good times are to be continued, Canadians must lend of their profits and of their savings with equal enthusiasm for the Victory Loan of this year.

WINTER TRAFFIC WILL BE HEAVY

Winnipeg, Nov. 3th, 1919.-The past few days of cold weather have resulted in an unprecedented large number of enquiries from points throughout the prairie provinces, for tickets, sleeping car, and boat reservations being received by Grand Trunk Pacific Railway agents, from business men, farmers and others who yearly are taking more advantage of opportunity of spending the winter months either on the North Pacific Coast or in California. Mr. F. J. Pickett, Passenger Agent of the Admiral Line, whose boats ply between Victoria, Seattle and California ports, who was in the city yesterday, also confirmed the above stating that their line has never had as many applications for reservations and that the majority of those were coming from the country district indicating further that the prairie farmers are seeking milder climates during the winter seasons and have the money to pay for the travel comfort and enjoyment that may be derived on these type of transportation companies.

The Prince Rupert route combines a rail trip through the most scenic part of the Canadian Rockies plus a 700 mile ocean voyage through sheltered waters, without additional cost to the passenger.

Ovey Watson, of Loyalist, Alta., will make his home here for the winter.

S. Smith has had the upstairs finished in the house recently bought from Mrs. A. G. Holland, giving three additional rooms.

Education in New World Era

The world upheaval occasioned by the Great War is having its effects not only upon political and political institutions, finance, trade and commerce, and economies in general, but also upon all social and moral relations. While the great struggle was in progress, and the need for biology, every ounce of power and every line of resources to bear to achieve victory became more and more evident, people began to say that the old world would never again be the same. This, in fact, became a truism, and many who made use of it hardly realized just how true it was and how great would be the reaction taking place in the world, and which was affecting every phase of individual, community, national and international life.

Remarkable and far-reaching as have been the changes brought about in political life and institutions—both here in Canada we are only now beginning to realize just how great the change has been, and just beginning to get a glimpse of the changes and impending greater changes which seem impending in finance, trade and commerce, in science and invention, the greatest change of all has taken place in the sphere of social conditions.

The instant demands of Labor for new place in the social order, the almost world-wide attention being movement against the perpetration of the legalized liquor traffic, the insistence upon greater attention being paid to the health and physical well-being of the people, more especially of the boys and girls—the need for strictly to sternly exposed by the examinations conducted by the army doctors in connection with the recruiting of the immense armies which modern war called for these things are even more significant of the new era upon which the world has entered than are those which have to do with what in the past we have been taught to regard as the more material things.

And in the laying of the foundation for, and in the development of, this new social order, the most thoughtful men and women have been endeavoring that no one institution will be called upon to play a larger or more important part than the public schools and higher institutions of learning throughout this and all other lands. In every progressive country today, education is receiving the serious attention of the most public-spirited and far-seeing statesmen and leaders in public life.

In Great Britain it has found expression in the most sweeping educational reforms of the last half century or more, and the appropriation of positively staggering sums of money, even at a time when the Old Land is faced with a tremendous national debt and taxation has reached heights hitherto unknown of.

In Canada a general awakening in regard to matters educational is evident in almost every Province, and is most noticeable of all in the Provinces of the West and in old Quebec. The change which is taking place in the latter Province is, perhaps, most significant of all, and has in it all the elements that may yet lead to a closer union between Quebec and the other Provinces and

help to eliminate those causes of friction which in the past have so greatly retarded our national life.

One of the most promising movements so far as Canada is concerned was the convening of the recent National Conference on Character Education in relation to Citizenship, which was held at Winnipeg October 20-22, and which was attended by representative men and women in all walks of life from every Province of the Dominion, and at which inspiring and instructive addresses were delivered, not only by prominent Canadians, but by leaders of thought from the United States and Great Britain.

So important does the writer of this column consider this great National Conference to have been at this stage in Canada's history, that he proposes to devote some space to its deliberations in future articles.

Very Accommodating

"How did you get on?" The sweet maiden breathed the words into her lover's manly ear as she met him in the passage. He was "seeing father," and she wanted to know the result.

"Oh, your father is heartless!" said the young man indignantly. "I told him I could not live without you, and—"

"Yes, Yes!"—impatiently. "What did he say?"

"He merely offered to pay my funeral expenses!"

A little geyser judiciously administered often makes a weak man strong.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious, fruity taste. Put directions for child's dose on each bottle. Give it without fail. Mother? You must say "California."

New things to eat are being discovered daily—scientifically for the purpose of adding to the high cost of living.

Drives Asthma Before it. — The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the remedial remedy shows how actual and positive is the success it gives. It is the result of study and experiment, and was not submitted to the public until its makers were sure it would do its work well.

Walked 95 Miles in One Day. One of the most remarkable pedestrians ever known is probably Edward Payson Weston, who walked in one day from Philadelphia to New York, a distance of ninety-five miles. He left the City Hall in Philadelphia at five minutes after midnight, and reached the City Hall in New York at 11:35 p.m. A year later he walked over the same route he had walked four years before, beating his own previous time by many hours, and going 1,300 miles in 24 days 20 hours. Of all the rivals an athlete has to give, the most difficult to overcome is his past self.

In Russia, certain peasant costumes are trimmed with the skins of the turbot, and in Egypt men wear sandals made from the skins of fish caught in the Red Sea.

Keeps Baby's Skin Healthy

IF every mother could only realize the danger which lies in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

60 cents a box, all dealers, or Edman, 301 St. C. St., Ltd., Toronto.

Dr. Chase's Ointment

For Soldier Settlers

School Lands in Manitoba and Saskatchewan Withheld From Sale

Through the intervention of the Soldier Settlement board, school lands in Manitoba and Saskatchewan aggregating 432,000 acres, have been withheld from sale by auction in order to be made available for settlement by returned soldiers. Arrangements have been completed to advertise these lands, 2,700 quarter sections in all, for sale by public auction this fall. The lands are situated in the Winnipeg, Brandon, Assiniboia, and Rose de Lac districts in Manitoba, and the Canora, Virden, and Albert and Wakay districts in Saskatchewan. They were selected because of the fact that in these districts crops this year were good and increased settlement is particularly desirable. The provincial governments concurred in the sale.

No child should be allowed to suffer an hour from worms when prompt relief can be got by using Worm Exterminator.

At Swedish weddings, among the middle and lower classes, the bridegroom carries a whip. This is an emblem of his authority in the domestic circle.

Our idea of a hopeless liar is a person who says he never makes mistakes.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Alfred Naud, Sturgeon River, Qu'bec, writes:—"I do not think there is any other medicine to equal Baby's Own Tablets for my baby and would use nothing else." What Mrs. Naud says thousands of other mothers say. They have found by trial that the four flavors do not harm the baby and are claimed for them. The Tablets are a mild but thorough laxative which regulates the bowels and soothes the stomach and its banish indigestion, constipation, colic, and other ills. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In Russia, certain peasant costumes are trimmed with the skins of the turbot, and in Egypt men wear sandals made from the skins of fish caught in the Red Sea.

Minard's Liniment Cures Dismeter.

British Strikes Very Costly. The approximate cost of the recent railway strike to the British treasury was \$10,000,000 sterling, according to an announcement made by the Chancellor of the Exchequer in the House of Commons. The Chancellor added that the publicity campaign against the strike cost the government more than £20,000 sterling.

It is but natural that a man should get hot when others "roast" him.

W. N. W. C. 128

U.S. May Purchase British Airship

Two and a Half Million Dollars Appropriated by Congress for Purchase

An early closing of the contract for the purchase by the navy department of the British rigid airship R38, the largest airship in the world, now under construction in England, is expected, it was stated at Washington. Two and a half million dollars were appropriated by congress for the purchase of this airship.

"The success," said the statement, "of the British in building and operating rigid airships is proved by the trip of the R34 to the United States and its return to England. While the Germans had many years' start of the British, the latter have made wonderful progress in the last few years."

"The R38 to outward appearances will look like the R34, but her dimensions, horsepower, speed and radius of action will be much greater. When full of gas, she will have a 2,724,000 cubic foot capacity, which is fifteen times that of the C5, the United States naval dirigible blown to sea and lost last spring at Newfoundland on the eve of an attempt to cross the Atlantic."

"The R38 is 694 feet in length, 86 feet in diameter, 93 feet six inches high, and carries a useful load of 45 tons. It is expected to have a maximum speed of sixty knots."

"The British air ministry has offered to train personnel for the R38, that upon delivery the airship can be taken over immediately by a United States crew and flown to the U.S."

A woman who attempts to cook according to her husband's idea is apt to make a mess of it.

SATISFYING RELIEF FROM LUMBAGO

Sloan's Liniment has the punch that relieves rheumatic twinges

This warming-giving, congestion-scattering circulation-stimulating remedy penetrates without rubbing directly to the aching spot and brings quick relief, surely, cleanly. A wonderful help for external pains, sprains, strains, stiffness, headaches, lumbago, neuritis.

Use your bottle today—costs little, means much. Ask your druggist for it by name. It's the best for your whole family. The big bottle is economy. 35c, 70c, \$1.40. Made in Canada.

Sloan's Liniment Keep it handy

Growing on the Manitoba Agricultural College grounds are a number of selected native seedling plum trees. These trees were in full bearing this year, and their crop has demonstrated very clearly that plums of good size and quality can be grown in Manitoba. From 25 to 100 pounds of fruit have been taken from each tree.

Corn cannot exist when Holley's Corn Cure is applied to them, because it goes to the root and kills the growth.

En Route From Siberia

Seven Hundred British Soldiers Due to Reach Vancouver Nov. 11.

Seven hundred British Soldiers now on the east coast from Vladivostok on the C.P.O.S. St. Montague will arrive in Vancouver on Armistice day, Nov. 11, and will be entertained during their brief stay by the Great War Veterans, the Imperial Veterans and the Ladies' Auxiliary of the Army and Navy.

They are all volunteers and have served for four and a half years. They are First World's, Manchester, Gordon Highlanders and Durham in the party. They will be in Montreal en route to England about Nov. 17.

To Utilize Tidal Power. In view of the shortage of British coal for export purposes, it is reported that French scientists and industrialists are endeavoring to supply power by harnessing the tides. For several years French scientific men have declared that this was no fantastic dream, and already considerable data on the subject have been collected. In order to apply these theories to the test of practice, a small station on the subject have been carried out experiments at Ploosman, on the Cotes du Nord.

What other men have done, you may do. Carlyle says: "He can who thinks he can." Emerson says, "Nobody can cheat you out of ultimate success but yourself."

Dominions Take New Status

Manchester Guardian Talks of Revolution in Unwritten Constitution of Empire

The Manchester Guardian in discussing the revolution which has taken place in the unwritten constitution of the British Empire, calls attention to the fact that the dominions are individual nations under the peace treaty and have separate votes in the League of Nations' council. This point, it says, is better realized in America than in Great Britain, as is shown in one of the proposed legal reservations in the American senate that on any law in which the British Empire, or any dominion, is involved, the British Empire suffrage be restricted to one vote.

The Guardian thinks this proposal will not readily find acceptance in the dominions and says Sir Robert Borden's recent insistence on the right of the Canadian parliament to debate the ratification of the peace treaty is symptomatic of the increasing determination of the dominions to assert individuality. If the league is not to meet with embarrassing results it is essential that the new status of the dominions be fully considered and regularized, the Guardian concludes.

The price paid for a trade is hush money.

Minard's Liniment Co., Limited, Montreal, Quebec, Canada.

Minard's Liniment on my vessel and in my family for years, and for the every day life and accidents of life I consider it has no equal. I would not start on a voyage without it if it cost a dollar a bottle.

There's Nothing Like

Zam-Buk's soothing and healing power. Zam-Buk has been our household balm for fourteen years, and I could not do without it! says Mr. George A. Kilburn of Swan Lake, Man.

For eczema and skin troubles of all kinds Zam-Buk has no equal; also for old sores, ulcers, abscesses, boils, pimples, blood-poisoning, piles, cuts, burns, bruises and scalds. All dealers or Zam-Buk Co., Toronto. Box 36, 3 for \$1.25.

Zam-Buk

Danger—Colds. A cold is a dangerous complaint, as it is the beginning of many other troubles. It is best to treat it at once.

GRAY'S SYRUP OF RED SPRUCE GUM

from the first sniffle or sneeze. Stop it in its tracks and do not permit it to reach your lungs. Use over 40 years in treating coughs, colds, and all related complaints. Everywhere says the Large Size. Dr. J. D. Watson & Co., New York.

Cooperative Exchange Plan. With the view to enabling those with farm produce to dispose of it to best advantage, the Saskatchewan Provincial Department of Agriculture has established a cooperative exchange, the idea being that cooperative associations in the province should there be a surplus of potatoes and like produce should ship to districts where there is a scarcity.

Through lack of information farmers with produce to sell frequently export it from the province in ignorance of the fact that better prices could be obtained from other Saskatchewan districts. The exchange plans to bring the buyers and sellers together and act as a clearing house.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" stamped on tablets positively identifies the only genuine Aspirin. The Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always bear an unbroken package of "Bayer Tablets of Aspirin" which also sell larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer."

Aspirin is the trade mark in Canada of the Bayer Corporation. It is the only name which is known to the public and is the only name which is stamped with their general trade mark, the "Bayer Cross."

The Hidden Chart

Publicity on Fourth Episode

Hardwick has brought Thelma safely back to the ranch after their narrow escape from death and rescue by Baldy, one of the cowboys. The cowboys are all assembled in the ranch house to have a little music and their quartette is preparing to finish a little tune. But Baldy, one of quartette is missing. Hardwick grateful to Baldy for the rescue that afternoon goes out to look for him and sees only a few feet away from him a grinning wolf's head which the terror always wears. Determined to end the mystery for all time he draws his revolver and starts for the Terror who runs into the house. As Hardwick follows him he trips over an object which upon examination proves to be something which ends for the time his pursuit of the Terror. It is the dead body of Baldy and with a dagger between his shoulder blades showing he was stabbed from behind. Attached to the dagger is a note reading, "Let him who robs the Terror of his prey beware."

Thelma tells Hardwick to meet her in an hour at the Devil's Oven a lonely spot at the base of high cliff. There they can talk over the mysterious papers without interruption. But Carmichael has gone immediately to Francesco and told of there rendezvous at the Devil's Oven so that the Mexicans are in ambush awaiting their arrival. "The Terror of Range" will be shown at the Mirror theatre on Saturday evening, Nov. 8th.

LOCAL NEWS

A big dance will be given by the Mirror branch of the G.W. V. A., in the hall at Mirror on Friday, Nov. 21st. Keep the date in mind.

Fred. Grant left for Rochester, Minn., where he will have an examination made of his foot by Mayo Bros.—Bashaw Star.

The loose ends of the war will be caught up by the Victory Loan 1919.

Mirror school now starts at 9.30 in the morning and closes at 3.30 p.m., with one hour at noon.

Owing to the failure of the Film Exchange to supply the local picture house with the film, "Common Clay," last Saturday, the proprietors intend showing it the coming Saturday night, Nov. 8th. The fourth episode of the "Terror of the Range" will form a part of the program.

Misses Gladys Motl and Eunice Cook left last Saturday for Calgary, where they will take a course in the Garbutt Business College.

The Victory Loan is the place for Trust funds which demand safe investment with good return.

Geo. Thomas, Jno. Kehoe and Elmer Tulloch are away this week on a moose hunting trip, leaving here for Saunders, Alta. They are about 100 miles west of here.

THE JOURNAL office is now equipped to turn out all kinds of printing. Let us have your order.
